Subpart PHS 336.6—Architect-Engineer Services

PHS 336.680 Program of Requirements approval.

The programmatic and technical requirements for PHS design projects are established in a special document known as a Program of Requirements (POR). In the case of design projects involving the construction of new space, including new facilities, replacement facilities, and building additions, the contracting officer shall ensure that the Office of the Assistant Secretary for Health has approved, or waived approval of, a POR prior to the issuance of the synopsis or solicitation for architectural/engineering services.

PHS 336.681 Funding.

(a) The contracting officer shall ensure that the agency financial management officer has identified and certified that design funds have been appropriated and apportioned prior to the release of a synopsis or solicitation for architect-engineer services for the types of acquisitions specified in PHS 336.680. New facilities, replacement facilities, and building additions must only be acquired with funds appropriated for that specific project as evidenced by either (1) specific language in an appropriations act, or (2) Congressional appropriations intent as reflected in appropriations committee reports or Congressional budget justification.

(b) In the case of ADAMHA, FDA, HRSA, and NIH, the referenced agency financial management officer is the Director of the agency's Division of Financial Management. In the case of CDC, this official is the Director of the Financial Management Office. Subject to HRSA concurrence, funding for projects of the Indian Health Service/HRSA may be certified by the designated financial management officer within the IHS Office of Administration.

(c) The funding source certification shall include identification of the title, appropriation symbol, and fiscal year of the appropriation plus any relevant project or activity description in the appropriation act or reports.

(d) In an unusual circumstance where time is critical, a synopsis or solicitation for architect-engineer services may be issued after the POR has been approved if the agency financial management officer certifies that appropriation and apportionment of proper funds as set forth in paragraph (a) above are expected within 60 days. In such cases, the synopsis or solicitation must specify that award is subject to the availability of funds. In these circumstances the contracting officer shall ensure that contract award is not made until the agency financial management officer has certified in writing
